Top Reasons why you need to attend PAP ASIA 2014

- ▶ Big scale modernization and capacity expansion is on anvil in Bangladesh. In Bangladesh there is tremendous opportunity for suppliers & vendors to tap unexplored paper industry & market of Bangladesh.
- ▶ Bangladesh paper industry largely depends for raw materials i.e. Waste Paper and Pulp, on Imports
- ▶ Almost 90% of Machinery is being imported from other countries to serve Pulp, Paper, Printing, Packaging & Converting industries.
- ▶ Industry growth is in full swing so latest technologies are being sought to meet the local and international demand in Paper, Pulp, Print, Packaging and Converting.
- ▶ PAP Asia is fully International Show where different country's participation will be represented through exhibitors and visitors.
- ▶ The per capita paper and board consumption in Bangladesh is about 3.5-4 kg and it will increase further in future.

PapAsia – Objectives

- ▶ Facilitating modernization of the manufacturing assets.
- ▶ Providing adequate machineries options to expand the production capacity.
- ▶ Focus on quality improvements and up gradation of production
- ▶ Creating awareness for waste minimization.
- ▶ To introduce eco friendly technologies for the industries viz. Pulp, Paper, Printing, Packaging and Converting.

Fact Sheet

- ▶ Show: PAP ASIA EXPO 2014 (3rd International Exhibition and Conference on Pulp, Paper, Printing, Packaging & Converting)
- ▶ Date: 20th - 21st November 2014
- ▶ Venue: Bashundhara Convention Center (BCC) Dhaka, Bangladesh
- ▶ Featuring: Pulp and Paper Machinery Equipment & Accessories, Packaging Equipments & Devices, Converting and Printing Machinery

Branding Opportunity

Besides your participation PapAsia Expo also provides the opportunity for participating and non participating companies to promote their brand name in front of our powerful Attendees (trade buyers and representatives).

Enhance your Product and Brand visibility through:

- ▶ Various customized Sponsorship packages.
- ▶ Print Advertisement in Expo Directory/Souvenir/Show Catalogue.

Advertising and Branding at venue through screen, banners and board.

- ▶ Live demonstration at venue.
- ▶ Brand awareness through (Lanyards, Bag, Flyer and Pen distribution etc.)

Exhibitor Profile

Machinery, Equipments & Technology

Complete Paper Mill Machinery
Machinery for Upgradation of Existing Mills
Converting Machinery
Automation & Instrumentation
Bearing & Accessories
Boilers & Turbines
Chemical Recovery Plant & Equipment
De-Inking Recycled Fiber Technology
Dewatering Elements
Green Field Projects
Heaters & Heating Equipment
Industrial Gears
Industrial Knives, Blades & Holder
Industrial Pumps & Systems
Industrial Rolls
Paper Machine Clothing
Pollution Control Equipments
Printing Machinery
Quality Control Equipments
Raw Material Handling
Testing Equipments
Tissue Machinery
Used Paper Machinery & Equipments
Waste Water Treatment and many more...

Products

Specialty, Writing Paper | Printing Paper | Newsprint Paper | Paper Boards | Tissue Paper & Products | Other Paper Products

Raw Materials

Minerals & Pigments | Chemicals | Pulp & Fibre | Waste paper

Packaging

Corrugation Machinery | Cardboard Printing & Box Sticking Machines | Laminating & Form Filling Machines | Packaging Machines & etc.

Converting

Paper & Board | Application & Label Glueing Machines | Bag & Pouch making Machines | Other Converting Machines

Printing

Colour Management Systems | Process Equipments | Press Machines & Related Equipments | Silk screen & Label Printing | Paper Cutting Machines Trimmers | Die Cutting | Folding & Glueing Machines | Conveyor Systems | Printing Machines

Technical Presentation

Along with exhibition few technical presentations are also being planned, where company representatives will impart their best research and technologies with the targeted audience including CEO's, MD's, General Managers, Presidents, Chairman and other top level management. The technical presentations are highly content rich learning event where key players of the industry will hear about the latest technological developments and new innovations as well. It provides a platform to share the research, information and also provides an insight about the current and prospected growth vertical wrapped in Paper and its allied industries.

Visitor Profile

Mill Owners | Academicians | Govt. Officials | Paper Merchants | Paper Technologist | Investors and Promoters | Mill Managers & Supervisor | Manufacturers & Suppliers of Machinery | Purchasing Director/Purchasing Manager | CEO's & Decisions Makers form allied industry | Converting Mill Officials | Printing House Owners | Importers | Exporters | Traders | Technologists (Pulp & Paper)

Bangladesh Paper Industry: An Introduction

- ▶ In a developing country, witnessing a revolutionary up gradation in literacy, demand of paper is bound to grow. It is Important for paper Industry to grow with the same pace for the betterment of society as well as overall Industrial growth of the country.
- ▶ The economy of Bangladesh is a rapidly growing market-based economy. Bangladesh ranked as the 44th largest economy in the world in PPP terms. The economy has grown at the rate of 6-7% per annum over the past few years.
- ▶ Investment policy of Bangladesh is free and open for foreign Investments. Bangladesh gives most attractive packages of FDI.
- ▶ The major pulp and paper industries in private sector in Bangladesh have grown in Dhaka and Chittagong Regions.
- ▶ Paper provides the means of recording, storage and dissemination of information; virtually all writing and printing are done on paper. It is the most widely used wrapping and packaging material, and is important for structural applications. New specialty products are continually being developed.
- ▶ The Pulp & Paper Industry provides employment for a vast number of people and plays a vital role in the overall economy of the Bangladesh.
- ▶ The per capita paper and board consumption in Bangladesh is about 3.5-4 kg and that in advanced countries is more than 300 kg and the world average is around 50 kg while the Asia average is around 30 kg. If we assume growth up to Asia level, Bangladesh consumption will increase to 10 times of current consumption. The per capita paper consumption as well as total paper consumption are increasing all over the developing countries and so as in Bangladesh. It will increase further in future.
- ▶ Bangladesh produce around 600000 MT paper and board annually. The demand of paper and board is around 700000 -800000 MT/yr. The per capita paper consumption as well as total paper consumption is increasing all over the developing countries and also in Bangladesh. It will increase further in future. As facts and figures shows, there will be huge demand of paper and board in Bangladesh.
